Abstract: Papers up to 4 pages should be submitted using this format. Only doc and pdf formats are accepted. These instructions give you basic guidelines for preparing papers for the Advanced Voice Function Assessment (AVFA2009) Workshop Proceedings. Abstract should not exceed 200 words. Include up to 5 keywords.

Keywords : Margins, fonts, formatting

I. INTRODUCTION

The following instructions are the basic guidelines for preparing manuscript for the AVFA'09 Workshop. You are kindly requested to follow these instructions. It will help us in preparing materials for printing and it should guarantee uniformity among different papers in the proceedings.

II. METHODS

Format: the suggested format is the A4 format, on paper 21 cm x 29.7 cm (8.27 x 11.69 in). Set top margin to 25 mm (0.98 in), left margin to 22 mm (0.87 in). The column width is 82 mm (3.23 in) and the space between the two columns must be set to 8 mm (0.32 in). Column length is 225 mm (8.86 in), resulting in a bottom margin of 43 mm (1.69 in) for A4 paper. For letter format the bottom margin is 2.7 mm (0.106 in). Paragraph indentation is 3.5 mm (0.14 in).

Type sizes and typefaces: In editing your manuscript please use 14 point bold, capital letters for the title, 12 point Roman (normal) characters for author names and 10 point Roman characters for the abstract (bold), main text, author's affiliations, equations, figure and table.

Miscellaneous: Left and right-justify your columns. The lengths of the two columns should be the same on the last page of your paper.

III. RESULTS

A. Figures and Tables

Only black-and-white figures should be included. Figure captions should be below the figures; table

captions should be above the tables. Use the abbreviation "Fig. 1," even at the beginning of a sentence.

Use clear labels in Figure axis, using words rather than symbols. Put units in parentheses, but do not label axes only with units.

B. References

References should be referred by numerals in square brackets [1] in the text. Use style [1] for papers and style [2] for books or book chapters [3]. Only items published or accepted for publication may be cited in the reference list.

IV. DISCUSSION

Define abbreviations and acronyms the first time they are used in the text. Do not use abbreviations in the title.

Number equations consecutively. Center the equation in the Column and put the equation number in parentheses on the right margin, as in (1).

$$a + b = c \quad (1)$$

Be sure that the symbols in your equation have been defined.

V. CONCLUSION

Système International (SI) units must be used.
